Dr. Miles' Heart Cure
Cures a Prominent Attorney.

Mr. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Officers at Huntsville Before the War Investigating Committee.

SICK WELL CARED FOR

Most of the Illness Due to the Swampy Camp at Tampa—Men Before Santiago Did Not Have Time to Eat—Soldier Immersed in Water Heated to 99 Degrees.

Huntsville, Ala., Oct. 28.—The war investigating commission began its work yesterday with Captain Angur, who was in the quartermaster's department at Tampa. He said that for a time the department was swamped there, and he attributed the congestion to the railroads. Captain Cutter, an Ohio volunteer surgeon who had charge of the ambulance corps at Tampa, said there was a shortage of ambulances there, and that the camp conditions were bad. Colonel Duffy of the Sixty-ninth New York said his command had never lacked commissary supplies, but that there was some delay in furnishing quartermaster stores. The sick had been well cared for, and while he had seen some criticism in the New York newspapers, he thought most of the sickness originated in the swampy camp at Tampa. There they had to dig only six inches for water, and there were no tent floors. He said there had been 16 deaths in the regiment.

Captain Charles V. Parkhurst of the Second artillery detailed the participation of the artillery in the siege of Santiago. There were times when his men did not have time to eat, but there was no time when they did not have food.

First Lieutenant Conklin of the Second artillery, who was in the Santiago campaign, said the only material defect in the supplies was in the powder, which he thought should have been smokeless.

Major Lebo, in command of the Sixth cavalry, complained of the difficulty of securing lumber, fire wood, horseshoes and stoves in the camp here. He also said the tents were of poor material and leaked even when new. He also said there had not been sufficient medical supplies in Cuba and that the transport Gate City, in which the command came north, was poorly suited to the purpose.

Captain Stretch of the Tenth infantry gave in detail the hardships of that regiment during the San Juan fighting. He said there was no time when the men had nothing to eat, but he did not remember having drawn a full ration while in Cuba.

Dr. Connor and Governor Beaver, who visited the general hospital found a very interesting patient there in a man in whom life had been kept for the past three weeks by keeping him immersed in water heated to 99 degrees. The man's legs had been amputated at the hip joint because of the severing of the femoral artery. The commission held a session last night and after examining a few witnesses left for Chattanooga.

PEACE JUBILEE PARADE.

President McKinley Reviews His Victorious Army at Philadelphia. Philadelphia, Oct. 28.—For three hours yesterday William McKinley, commander-in-chief of the United States army and navy, saw his victorious sons pass in review before him. It was military and naval day of the great peace jubilee. Twenty-five thousand men marched in the most brilliant and spectacular pageant the country has witnessed in many years. Here and there when some particularly renowned body of troops marched by, the president smilingly waved his hat and

There are weeds in everybody's garden, and no garden was ever planted in which weeds did not insidiously present themselves. They come without invitation and without a welcome. If you can recognize them as weeds, and if you have sense enough to know that weeds choke flowers, and pull the weeds up, root and branch, you will save the flowers. There are weeds in the health garden of many a man and woman. The doctors call them disease germs. If you have sense enough to distinguish them from the flowers of health, and root them out, you will be robust, healthy and happy. The most dangerous of all the weeds in the flower garden of health is that deadly creeper consumption. There has never been but one medicine that would choke out this weed, root and all. That medicine is Dr. Pierce's Golden Medical Discovery. It acts directly on the lungs through the blood, driving out all impurities and disease germs, and building up new and healthy tissue. It restores the lost appetite, makes digestion and assimilation perfect, invigorates the liver, purifies the blood and fills it with the life-giving elements of the food and tones and builds up the nerves. It sustains the action of the heart and deepens the breathing, supplying the blood with life-giving oxygen. Medicine dealers sell it.

A doctor, who is considered an expert on lung troubles, told me I had consumption and could not live long," writes Mrs. James Goffield, 77 Mary Street, Hamilton, Ont., Can. "Three bottles of Dr. Pierce's Golden Medical Discovery cured me completely."

BOY BANDITS

Five of Them Sentenced to Prison For Ten Years Each.

St. Joseph, Mo., Oct. 28.—In the criminal court Herbert Donovan, Alonzo Arteburn, Charles Cook, James Hathaway and William Hathaway were sentenced to the penitentiary for 10 years for robbing a Burlington passenger train near St. Joseph the evening of Aug. 11. The robbers are mere boys and of good families.

On this account the railroad and express officials consented to the assessment of the minimum fine on their plea of guilty. The robbery was successfully executed, but no booty was secured. After throwing the safe containing a large amount of money, from the train the boys became frightened and ran away without opening it. They proceeded to their homes in this city and next day James Hathaway made a confession and all were arrested.

THE DREYFUS CASE

How the Court of Cassation Is Expected to Decide It.

THERE WAS NO TREASON

Decision of the Courtmartial Cannot Be Upheld—Colonel Picquart's Letter to the Minister of Justice Declaring Dreyfus' Innocence and Giving Interview With Minister of War.

Paris, Oct. 28.—The belief is general that the court of cassation will pronounce neither for revision nor for annulment of the decision in the Dreyfus case as either course would entail awkward consequences.

To avoid these it is expected the court will decide that as the affair now presents itself there has been no treason and that therefore the condemnation pronounced upon Captain Dreyfus by the court martial cannot be upheld.

Great stress was laid by M. Bard on Colonel Picquart's letter of July 14, 1798, to the minister of justice, in which he gave seven principal arguments against the probability of guilt of Dreyfus, including the impossibility of Dreyfus procuring the plans of fortresses and projects for the movement of troops, undetected, whereas Major Esterhazy had free access thereto.

This letter also cites interviews which Colonel Picquart had with Generals Bliet and Gonze, and says: "With the proof in my hands, I have established the innocence of Dreyfus."

To this General Gonze replied, according to the letter to the minister of justice: "What is it to you if Dreyfus is on Devil's island?"

Colonel Picquart—"But he is innocent."

General Gonze—"You know Mercier (former minister of war) and Saussier (former military governor of Paris) are mixed up in this affair. Do you wish to compromise them?"

The letter then continued that on leaving General Gonze Colonel Picquart declared he was convinced of the innocence of Dreyfus and he proposed to fight the matter out and reveal what he knew. These statements caused a sensation in court.

After further reference to Colonel Picquart's charges that the ministry of war and the general staff had tampered with documents and had manufactured evidence in the Dreyfus case and a presentation of the contradictory statements of Colonel Picquart and the minister of war relative to the secret document alleged to have been communicated to the court, the hearing of the case was adjourned.

The court house was emptied hurriedly. There were no demonstrations and no cries of any sort.

NEW CABINET.

M. Dupuy Asked by President Faure to Form One.

Paris, Oct. 28.—President Faure late last evening asked M. Dupuy to form a cabinet in succession to the Brisson ministry, which resigned on Tuesday.

It is thought that the cabinet will be composed as follows:

M. Dupuy, premier and minister of the interior.

M. De Freycinet, minister of war.

M. Constans, minister of justice.

M. Delcasse, minister of foreign affairs.

M. Ribot, minister of finance.

M. Bourgeois, minister of public instruction.

Charles Dupuy, who has been called upon by President Faure to form a new cabinet, was born at Pay on Nov. 5, 1851, and has already been twice premier of France. After having been a pupil of the Superior Normal school, a teacher of philosophy, honorary vice rector and an officer of public instruction M. Dupuy was elected a deputy to the Haute-Loire in 1885 and was re-elected in 1890, 1893 and 1894. He was minister of public instruction in the Ribot cabinet in 1892; president of the council of ministers (premier) and minister of the interior in April, 1893, president of the chamber of deputies in December, 1893 and president of the council and minister of the interior in May, 1895 which offices he resigned on Jan. 14, 1895. M. Dupuy was regarded as a strong rival of M. Casimir-Perier in the canvass for a successor to the late M. Carnot as president of the French republic.

M. Dupuy, who was interviewed as he was leaving the Elysee, said the question of the Dreyfus revision was purely judicial, adding: "No honest politician will decline to accept the decision which shall be given."

AROUND THE WORLD.

Mr. and Mrs. McIlraith Circle the Globe on Their Bikes.

New York, Oct. 28.—H. Darwin McIlraith and his wife of Chicago, arrived here today from Southampton, England on the American line steamship Pennland. The McIlraiths started on a wheeling tour on Oct. 10, 1895, from Chicago. They crossed the Rockies and on June 1 arrived in San Francisco. There they took a steamer for China. The couple rode through that country and then proceeded through Japan. Their route was afterwards through Burma, India, Persia, Russia, Austria-Hungary, Germany, France and Great Britain. The McIlraiths had ridden nearly 30,000 miles when they boarded the Pennland for New York. They had some exciting experiences in Asia and India, but were not molested by the natives. They intend to ride from this city to Chicago and the start will be made in a day or two.

No one was censured, and no recommendations were made by the grand jury.

Death of a Woman Who Followed Mrs. Williams' Teaching.

Los Angeles, Cal., Oct. 28.—A case of fanaticism of the extreme type was discovered here while Miss Nell Thompson, colored, died while being taken from the home of Mrs. Minerva Williams, who is said to call herself a representative of Christ and who has been preaching the doctrine of fasting as a means of grace.

The Thompson woman practiced this doctrine, having gone without food for eight days and sleeping in the river bottom on a piece of matting in pursuance of what is said to be Mrs. Williams' teachings. The matter is to be investigated.

Spain laid her pride aside long enough to suggest that Uncle Sam pay her debts.

The Spanish peace commissioners made plenty of fuss about the Cuban debt, but the American commissioners fixed the terms.

Old Spain is making her last stand against Uncle Sam, who pities her sufficiently in her weakness to have considerable patience with her.

If the state of New York prefers a Croker male governor to Col. Roosevelt, the balance of the country will not be disposed to extend sympathy.

There is no question as to the cunning of the new financial manager of the democratic party. Coin Harvey is prepared to furnish all the literature to be purchased with the funds he is raising.

Hon. John M. Palmer has come to the conclusion that the best way to settle the financial question is to strike direct and not through third parties. General Palmer announces that he will vote for the republican congressional nominee this year.

JOHN BURRELL's scheme in postponing the construction of the gravel roads, against the expressed will of the people most interested, has been thoroughly ventilated and there are few taxpayers in the county but know that the delay was to help the Brownstown gang. The delay will cost the county several hundred dollars, but the ring cares nothing about that so long as they are the beneficiaries.

The Honeytown 'Kicker.'

We have been reading the Brownstown Banner, or the Ring organ, and we find that the Honeytown Hummer, or the Honeytown kicker, as he is better known in the community where he lives has free access to slander whom he pleases. If he wants to slander a republican it is all right with the Banner and no one can say a word in defence of his character, that is a republican cannot in the Banner, the Kicker has it all his own way there.

If Trustee White has been paying bills that were not right why did the Kicker not jump the county commissioners for approving his report? They are denials; that is why. The Kicker has a job on the gravel roads where he can hire a boy at boy's wages and send him out and charge \$1.00 for the boy and \$1.50 for himself as boss. No, I would give it to White and let the commissioners alone as long as they paid my bills. The Kicker has been the ring's leader in this vicinity for a long time. That is where he gets his bread and butter. Why did the commissioners allow these bills if they were not all right? They had been so used to allowing claims I suppose they thought they would not depart from the old rule. Mr. White is a republican and the kicker of Honeytown thought he would make a display of his ability as a kicker and thereby draw a few votes for the democratic ticket. People are getting disgusted with the everlasting kicker and the sooner he kicks himself out of the way the sooner the community will get rid of the worst nuisance it ever had in it. One of our neighbors had a kicking mule but it wilted when it saw the Honeytown Kicker. There is not another paper printed in Jackson county that would print his slanderous abuse but the Banner of Brownstown.

A HONEYTOWN RESIDENT.

The people ask and insist on it that the men elected to county offices shall attend to business of their office as honestly and as carefully as they would to their private business. The candidates on the citizens' ticket will do this.

The Spanish peace commissioners yesterday agreed to the terms of the Americans concerning the Cuban debt. The attempt of Spain to saddle this debt on this country failed entirely and now the commissioners will begin work on the Philippine question.

Every day brings fresh evidence that the so-called republican ticket at Brownstown has been put out in the interest of the ring ticket. The ring leaders will use this movement in their endeavor to get absolute control of the election boards in the county. But the people will make their verdict on Nov. 8 so emphatic that it cannot be misinterpreted, and Burrell and his crowd will see the situation from a different standpoint after that date.

The only hope success for the ring is to be divided the vote of the eastern end of the county. No one realizes that fact more fully than does John Burrell and his coterie of assistants. To this end all their energies are bent. Every move they make is directed toward accomplishing this object. They see defeat staring them in the face and they are resorting to any sort of means to save themselves. The supporters of the citizens ticket understand these movements however and will stand solidly against their schemes. They have had enough of the ringster's scheming and propose to put an end to it on Nov. 8 by electing every man on the citizens ticket.

Convict Farming.

Indiana is attempting to solve the convict labor problem. The purpose is to make farmers out of the prisoners. In this capacity the unfortunates can cultivate for themselves all the vegetables and fruits they require, and in addition raise enough to supply the other state institutions. Experiments have already been made in this line. Twenty-five men labored at hand cultivation on forty acres of land belonging to the institution at La Porte. According to the warden's report, there were raised \$500 worth of potatoes, 100,000 young onions, 150,000 radishes, 75,000 bushels of peas, 60,000 bushels of beans and 75,000 head of cabbage. If all the convicts engage in the same labor and raise enough to supply every State institution with all or nearly all the farm products necessary, the farmers who formerly supplied these products will probably raise objection. But in the noble and healthful occupation of farming may yet be found the answer to the difficult convict labor problem.—Times Star.

THEN AND NOW.

What Kern Thought of Free Silver Before He Was Told by Party to Support It.

At the meeting of gold Democrats of Indianapolis, held in May two years ago, Hon. John W. Kern, now an advocate of Democracy on a free silver platform, said:

"Shall the owner of 50 or 55 cents worth of silver bullion be permitted to have the same coined into a piece of money labeled a dollar and made a legal tender, and shall the workmen of the country be compelled to receive this debased and depreciated currency in payment of their wages?"

"Shall the 4,500,000 depositors in the savings banks of the country of \$1,810,000,000—an average of \$371 for each depositor—be paid with a depreciated money, with dollars worth little more than half as much as those deposited?"

"There are now in this country hundreds of millions of dollars of capital ready to be invested, if the owners were only assured that they would be able to take up 100 cents for every 100 cents they put down. If a man has gold he is putting it away until he sees how all this financial agitation is going to end. He knows that his dollar is now worth 100 cents, but he is afraid, if it gets away from him, it may come back worth only 50 cents."

"The enactment of a free silver law would result in inevitable disaster, not to those at whom it is aimed, but to the boys in the trenches, to those who earn their bread by the sweat of their brows. If the country has one absorbing need at this time, it is stability in our financial affairs."

One thing should not be forgotten by the voters this year. As long as there were unrestricted Democratic majorities in the legislature, so long the people were deprived of fair representation in that body. Infamous appointments succeeded each other until the Republicans had the opportunity to drive them out of the state for all time to come. They passed an apportionment so fair, so honest, so just, that the Democrats dare not assail it.

BAPTIST RESORT.

Movement Looking to Purchase of Grounds Near Pine Lake.

Laport, Ind., Oct. 28.—The Baptists of the state are reported to be lending hearty support to the movement which is under way to raise \$4,000 and purchase the Chautauqua grounds at Pine Lake near this city. The plan of the promoters of the movement is to establish a distinctly Baptist resort for Indiana members of the denomination, with annual educational assemblies as a particular feature.

ODDITIES IN WILLS.

SOME PECULIAR BEQUESTS AND CURIOUS CONDITIONS.

A Patriotic American's Desire to Be Heard After Death—Wills Which Prove That in the Cases of Their Makers Marriage Was a Failure.

The admiration of our American consuls for their country is a prominent characteristic of their daily life, and some years ago a Mr. Sanborn desired that in death as in life his body should proclaim the glory of the republic. He left \$1,000 to the late Professor Agassiz, in return for which he was, by an extremely scientific process set forth in the will to tan his (Sanborn's) skin into leather and from it have a drum made. Two of the most suitable bones of his body were to be made into drumsticks, and with these a Mr. Warren Simpson—to whom Sanborn left the remainder of his property—was "on every 17th of June to repair to the foot of Bunker hill and at sunrise beat on the drum, the parchment of which had been made out of the testator's skin, the spirit stirring strains of 'Yankee Doodle.'"

A somewhat similar bequest was made by a German in 1887. He died in Pittsburgh and by his will directed that his body should be cremated and the ashes forwarded to the German consul at New York, who was to deliver them to the captain of the steamship Elbe. When in midocean, the captain was to request a passenger to dress himself in nautical costume, and, ascending with the funeral urn to the topmast, to scatter the ashes to the four winds of heaven. These strange directions were faithfully carried out.

Quite as peculiar were the directions for the funeral of a Mr. John Underwood. He willed that he was to be buried in a green coffin with a copy of Horace under his head and of Milton under his feet, a Greek testament in his right hand and a small Horace in his left. Six friends, who were not to wear mourning, were to follow him to the grave and there to sing a verse of the twentieth ode of the second book of Horace. After this they were to "take a cheerful glass and think no more of John Underwood."

Wills may also be admitted as evidence of the mixed blessings of the matrimonial state. A nobleman wrote, "I give and bequeath to the worst of women, whom I unfortunately married, 45 brass halfpence, which will buy her a pullet for supper."

A Glasgow doctor, dying some ten years ago, left the whole of his estate to his two sisters, and then came this extraordinary clause: "To my wife, as a recompense for deserting me and leaving me in peace, I expect the said sister Elizabeth to make her a gift of 10 shillings sterling, to buy her a pocket handkerchief to weep in after my decease."

A Mr. Sydney Dickenson bequeathed to his wife the sum of £60,000, "on condition that she undertakes to pass two hours a day at my graveside, for the ten years following my decease, in company with her sister, whom I have reason to know she loathes worse than she does me."

Another husband stated that he would have left his widow £10,000 if she had allowed him to read his newspaper in peace, but as she always commenced playing and singing when he started to read he left her only £1,000. Such instances could be multiplied indefinitely, but one other is worthy of note.

A husband left his wife £12,000, to be increased to £24,000 provided that she wore a widow's cap after his death. She accepted the larger amount, wore the cap for six months, and then put it off. A lawsuit followed, but the judge held that the testator should have inserted the word "always" and gave judgment in favor of the widow, who the day after re-entered the state of matrimony.

But the most curious will which the writer has ever come across is that of M. Zalesky, a Polish landlord, who died in 1889, leaving property valued at 100,000 rubles. His will was inclosed in an envelope bearing the words, "To Be Opened After My Death." Inside this was another envelope, "To Be Opened Six Weeks After My Death." When this time had passed, the second envelope was opened and a third uncovered, "To Be Opened One Year After My Death." At the end of the year a fourth envelope was discovered, to be opened two years after the testator's death, and so the game went on until 1894, when the actual will was discovered and read. It was quite as eccentric in its dispositions as the directions attached to its opening. The testator bequeathed half his fortune to such of his heirs as had the largest number of children. The rest of the property was to be placed in a bank and a hundred years after his death to be divided, with the accumulated interest, among the will maker's descendants. Thus by 1899, at 5 per cent compound interest, the 50,000 rubles will have swelled into 6,000,000 rubles. But what will this be among so many descendants?—Household Words.

HOW TO VOTE

Republican Ticket.

REP. For Secretary of State,
UNION BANNER HUNT.
REP. For Auditor of State,
W. H. HART.
REP. For Treasurer of State,
LEOPOLD LEVY.

You must get your ballots and the blue pencil of the polling clerks in the election room.

If you want to vote a STRAIGHT REPUBLICAN TICKET, make a cross, thus X, within the LARGE CIRCLE at the head of the ticket containing the EAGLE. If you DO NOT wish to vote a straight ticket, you MUST NOT make a cross in the large circle containing the device of any party, but you must make a cross, thus X, on the small square to the left of the name of each candidate for whom you desire to vote on whatever list of candidates it may be. IF THE LARGE CIRCLE AT THE HEAD OF THE TICKET is marked, and the ballot is marked at any other place, IT IS VOID AND CANNOT BE COUNTED, unless there be no candidate for some office in the list printed under such marked device, in which case you may indicate your choice for such office by making a cross, thus X, on the square to the left of the name of any candidate for such office on any other list. The cross must be placed within or on the circle or square, or the ballot is void and cannot be counted.

DO NOT MUTILATE YOUR BALLOT or mark it either by scratching a name off or writing one on, or in any other way EXCEPT BY MARKING IN THE CIRCLE OR ON THE SQUARES, as before mentioned. Otherwise the ballot will not be counted.

After marking your ballots, and before leaving the booth, FOLD THEM SEPARATELY, so that the face of them cannot be seen, and so that the INITIAL LETTERS of the names of the polling clerks on the back thereof can be seen. Then hand your ballots to the inspector, the pencil to the polling clerk, and leave the room.

If you are physically unable to mark your ballots, or cannot read English, so inform the polling clerks, and tell them how you wish to vote, and they will mark your ballots for you. But neither you or the clerks must permit any other person to hear or see how your ballots are marked. It is a penal offense to declare that you cannot read English or cannot mark your ballots, if, in fact, you can.

If you should accidentally, or by mistake, deface, mutilate or spoil your ballots, return them to the poll clerks and get new ballots.

You must not accept a ballot from any person outside of the election room. Any ballot outside is fraudulent, and it is a penitentiary offense to have such a ballot in your possession, whether you attempt to vote it or not.

You must not attempt to hold any conversation in the election room except with members of the election board and the poll clerks.

You must not put any mark of any kind on your ballot except as before mentioned.

Use only the blue pencil handed to you by the polling clerk in marking your ballot. If you mark with any other pencil your ballot is void and will not be counted.

AT THE PARTING OF THE WAYS.

(Indianapolis News)

The political speeches of this campaign are discussing questions of further-reaching scope than most of the domestic problems that heretofore have absorbed our attention. In all of them there is a dignity, a seriousness, a sense of large responsibility, of impending national greatness and duty, which give them an elevation and distinction new to our political oratory. It is recognized that we are standing at the parting of the ways, on the edge of a new era, with a larger sphere of duty and activity confronting us; that

Through the shadow of the globe we sweep into the younger day.

And there is no shrinking of doubt or despondency. There is a spirit of self-confidence, of manly power; a quiet determination to meet new duties and do them, to breast strange difficulties and overcome them.

An advertisement must have vitality in the same manner as a living being. No one knows what it is that makes the difference between a corpse and an animate body, but everybody recognizes that something is lacking in one case that is present in the other. Many advertisements seem perfect in idea, language and mechanical construction, and yet lack the vital spark that attracts; others, imperfect in all the details mentioned, possess a magnetism that appeals to readers. To inject this quality into one's announcements is the great desideratum in advertising—Printers' Ink.

One advantage of the newspaper as an advertising medium is that it not only prints your advertisements but attends to the distribution as well.

Reckon It Up

You can easily afford a fall suit. Your old one won't do—you think so, but you can't see yourself, and even the best mirrors lie. What we look to be we are—in the eyes of the work. Holmes says: "The outward forms the inner man reveal"—and Holmes knew.

We will make you a suit—it will be stylish and finely made. You may see the suitings any time you come in. If you don't like them, you'll not be importuned to buy.
